YEARS OF SERVICE

The LARGEST independent turbocharger distributor in the world

Celebrating 30 Years of Turbochargers

When we started BTN Turbo back in 1974 little did I know that we would grow into the largest independent turbocharger distributor in the world.

We could not have accomplished such success without our customers, and we appreciate the custom and loyalty of our clientele who have supported us over the past 30 years and who have helped to make BTN Turbo what it is today.

Exciting times lie ahead; the turbo replacement aftermarket is forecast to double within the next four years and a sign of this expansion can be seen in this year's catalogue which contains more than 140 new applications.

Finally, we invite all our customers to join us in building upon success and growing their business in the turbocharger aftermarket.

Managing Director MIMI AMIRTE

Garrett®
Engine Boosting Systems

European distributor of the year 90,92,95,96,97,98,99 & 2001

Exclusive distributor

HOLSET
TURBOCHARGERS

Distributor of the year 1988 - 1997

Schwitzer

TurboService

IHI Ishikawajima-Harima Heavy Industries Co., Ltd.

HOW TO USE THIS CATALOGUE

This catalogue lists the fast moving turbochargers found in the European market.

The purpose of this catalogue is to help identify which turbocharger you require from the information found on the turbocharger nameplate.

All turbochargers should have an identification label/nameplate secured to the outside casing of the turbocharger.

This plate will differ in size and information, depending on the source of the turbocharger i.e. O.E. manufacture, O.E.S distributor or turbo reconditioner.

In all cases the nameplate should contain one of three pieces of information listed throughout this catalogue:

- **Turbo Model**
- **Turbo Manufacturers Part Number**
- **Vehicle Manufacturers Part Number**

If the turbocharger nameplate is missing or difficult to read, please obtain the following information to help us determine the correct turbocharger for the application;

- **Application**
- **Engine Make and Size**
- **Year of Registration**
- **Any additional information which could be relevant**

When ordering or enquiring for availability on a turbocharger, please use the turbo manufacturers part number wherever possible. The column denoted in **Bold Type**.

- **Gasket Kit**

As part of BTN's continuous development policy, we have included a listing column within the catalogue for Gasket kits. (Gasket). We now offer a larger and more comprehensive range of full kits.

There are three codes that denote the following:

F - Full Kit, including all gaskets, studs and nuts

P - Part Kit, one or more items within the kit are not available

N - No Kit supplied

All Kits printed are supplied F.O.C with each exchange turbocharger and are designed to enable your customer to be able to fit the turbocharger straight from the box.

Terms and Conditions

Payment:

Cash Sales payment becomes due from the date on the invoice.

Credit Account:

Payment becomes due from the date on the invoice raised. Payment of such invoices should be made not later than the end of the month succeeding the month that such invoices have been raised. This allows an account customer 30 to 60 days credit.

If the customer exceeds these credit terms the supply of goods/services will be suspended, and the customers account terms will be reviewed.

Title of Goods:

It is a condition of sale that all goods supplied by BTN Turbo will remain the property of BTN Turbo and the title of such goods shall not pass to the purchaser until they have been paid for in full.

In the event of the purchaser defaulting on payment for any reason including bankruptcy or insolvency, the purchaser will authorize BTN Turbo to enter the purchasers property where the goods are stored and remove all goods supplied by BTN Turbo, up to the value of the debt.

BTN Turbo shall give credit to the purchaser for all the goods repossessed.

Reconditioned Exchange Product:

To be acceptable for exchange all old units must conform to the following specifications:

- 1) Must be complete and in ex-engine condition.
- 2) Turbine shaft must not be broken.

Surcharges:

A surcharge shall be applied to exchange products if old units are not returned at the time of sale.

See Page 2 for surcharge rates.

Old units must be returned within 3 months of purchase to be eligible for a full surcharge refund. If an old unit returned does not conform to our acceptance specification, all or part of that surcharge may not be refunded.

Goods Returned:

Goods returned that were despatched correct to order, may be liable for a handling charge of 20%.

Warranties:

The receipt of information from the Purchaser and the delivery by the Company of the goods specified in any order does not in any way imply a warranty that the goods will be suitable for purposes disclosed. The only warranty which the Company makes is in connection with proprietary goods supplied.

BTN Turbo guarantees its reconditioned product against faulty workmanship and components for 12 months, or 50,000 miles whichever is reached first. Except in the case of petrol engine turbochargers the guarantee will be for 12 months or 12,000 miles, whichever is reached first.

Warranty is conditional on the vehicle being properly serviced according to the vehicle manufacturers recommendations.

Warranty may be denied in the event of either the turbocharger or the engine being modified to increase power output.

In the event of any goods proving defective during the period of the warranty due to faulty material or workmanship the Company shall, at its option either supply replacement goods or repair such defective goods free of charge.

Warranties cont:

Save as provided herein all representations, conditions, warranties and terms, whether express or implied by common law statute or otherwise, as to the quality, condition or fitness for any purpose of the goods are excluded.

Other product – supplied BY BTN Turbo from other manufacturers will carry the conditions of guarantee as specified by that manufacturer – available upon request.

Limit of Liability:

In no event shall the Company be liable for any direct, indirect or consequential loss or damage of any kind howsoever caused arising from the contract of sale or the use of the goods nor for any diminution in value of components consequent upon or resulting from the use of the Company's products. Without prejudice to any of the foregoing, the liability of the Company on any claim for loss or liability arising out of or connected with any order, or manufacturer, sale, delivery, resale or use of any goods covered by any such order (including, but not limited to, loss or liability arising from breach of contract) shall in no case exceed the unit price of such goods or parts thereof involved in the claim.

The limit of liability shall not apply to any claim for death or personal injury resulting from the negligence of the Company.

Turbochargers for Competition Use:

Turbochargers used for any form of racing are supplied in good faith and on the understanding that no guarantee is given in respect of performance or reliability of the product, either by the manufacturers or BTN Turbo.

BTN Turbo cannot be held responsible for personal injury or damage caused to the engine or vehicle by a failed turbo.

Whilst every care has been taken in compiling the information in this publication, BTN Turbo Limited cannot accept legal liability for any inaccuracies. BTN Turbo Limited has an intensive programme of development which may well alter some specifications. BTN Turbo Limited reserve the right to do this without notice and whenever necessary to ensure optimum performance of the product.

ENGINE STALLS DURING ACCELERATION	ENGINE LACKS POWER	BLACK EXHAUST SMOKE	EXCESSIVE ENGINE OIL CONSUMPTION	BLUE EXHAUST SMOKE	TURBOCHARGER NOISY	CYCLIC SOUND FROM TURBOCHARGER	OIL LEAK FROM COMPRESSOR SEAL	OIL LEAK FROM TURBINE SEAL	CAUSE	REMEDY
	●	●	●	●			●		Clogged air filter element	Replace element according to engine manufacturers recommendations
		●	●	●	●	●	●		Obstructed air intake duct to turbo compressor	Remove obstruction or replace damaged parts as required
	●	●			●				Obstructed air outlet duct from compressor to intake manifold	Remove obstruction or replace damaged parts as required
	●	●			●				Obstructed intake manifold	Refer to engine manufacturers manual & remove obstruction
					●				Air leak in duct from air cleaner to compressor	Correct leak by replacing seals or tightening fasteners as required
	●	●	●	●	●				Air leak in duct from compressor to intake manifold	Correct leak by replacing seals or tightening fasteners as required
	●	●	●	●	●				Air leak at intake manifold to engine joint	Refer to manufacturers manual & replace gaskets or tighten fasteners as required
	●	●	●	●	●		●		Obstruction in exhaust manifold	Refer to engine manufacturers manual & remove obstruction
	●	●					●		Restricted exhaust system	Remove obstruction or replace faulty components as required
	●	●			●		●		Gas leak in exhaust manifolds to engine joint	Refer to manufacturers manual & replace gaskets or tighten fasteners as required
	●	●			●		●		Gas leak in turbine inlet to exhaust manifold joint	Replace gasket or tighten fasteners as required
					●				Gas leak in ducting after the turbine outlet	Refer to engine manufacturers manual & repair leak
			●	●			●	●	Obstructed turbocharger oil drain line	Remove obstruction or replace line as required
			●	●			●	●	Obstructed engine crankcase vent	Refer to engine manufacturers manual, clear obstruction
			●	●			●	●	Turbocharger centre housing sludged or coked	Change engine oil & oil filter, overhaul or replace turbo as required
	●	●							Fuel system defective or maladjusted	Refer to engine manufacturers manual - replace or adjust faulty component(s) as required
	●	●							Engine camshaft timing incorrect	Refer to engine manufacturers manual & replace worn parts
	●	●	●	●			●	●	Worn engine piston rings or liners (blowby)	Refer to engine manufacturers manual & repair engine as required
	●	●	●	●			●	●	Internal engine problem (valves, pistons)	Refer to engine manufacturers manual & repair engine as required
	●	●	●	●	●	●	●	●	Dirt caked on compressor wheel and/or diffuser vanes	Clean using a Non-Caustic cleaner & Soft Brush. Find & Correct source of unfiltered air and change engine oil & oil filter
	●	●	●	●	●		●	●	Damaged turbocharger	Find the correct cause of failure, replace turbocharger as required
	●								Turbocharger wastegate malfunction	Check wastegate and actuator operation
●									High boost pressure, triggering ignition cut out switch	Check wastegate and actuator operation. Replace faulty parts as required
